

## System and Unit Test Report

Scenarios:

Sprint 1 = Sign up, log in, customize

Sprint 2 = Make a choice, buttons(view to view), output/wins/losses, specific user

Sprint 3 = Standardized Aesthetic

Sprint 1:

- A. User story 1 from sprint 1: As a user I want to create an account
  - B. User story 2 from sprint 1: As a user I want to be able to login to my account so that I can have access to my profile and game
  - C. User story 3 from sprint 1: As a user I want to be able to customize my profile page
1. From the home page, select “Log in” located in the top right corner.
    - Select “Sign up”
    - Type... First Name = <“”> Last Name = <“”> Email = <“”> Password = <“”>  
Confirm Password = <“(same as password)”> Username = <“(Must not be in database)”>  
Profile Picture = <Upload(If no image, there is a default one)> Bio = <“”>  
Favorite Choice <(From set of rock paper or scissors)>
    - Press Enter
    - User should now see they are signed in at top right and are welcomed by alert
  2. User should already be logged in after the steps above. If the user already created an account in the past then the user will
    - Select “Log in”
    - Select “Log in” from the drop down
    - Type... Username = <“”> Password = <“”>
    - Press Enter
    - User should now see they are signed in at top right and are welcomed by alert
  3. After signing up or logging in
    - Select “Username” at the top right corner
    - Click “Profile”
    - Customize whatever you’d like
    - Click “Apply Changes”

### Sprint 2:

- A. User story 1 from sprint 2: As a user I want to be able to open the homepage and be able to access my profile and the game.
  - B. User story 2 from sprint 2: As a user I want to be able to make inputs into the game and have a computer respond.
  - C. User story 3 from sprint 2: As a user I want to be able to view the results from a rock paper scissors game.
1. From the home page, open each page in a new tab. Do they all load?
    - ➔ From each page, test those buttons to
  2. Load play html page; refresh page to reset stats; think of choice
    - ➔ Think of what choice you want to make, rock, paper, or scissors.
    - ➔ Click on the corresponding image to your choice.
  3. After choice is made
    - ➔ Look in rectangular box to view the results from the game
    - ➔ Total wins and losses are also shown within this box.

### Sprint 3:

- A. User story 1 from sprint 3: As a user I want to be able to view all of the webpages with a standardized aesthetic and consistent style throughout all pages.
1. From the home page, open each page to visually verify the consistency of the background.
    - ➔ Make sure there are no differences in color schemes
